NO.

How do you feel about any remaining embryos being discarded or donated to scientific research? Will you sign a consent permitting such medical or scientific research or destruction of such remaining embryos? YES

Some clinics have their Prospective Parents sign away rights to any left over embryos to be used at the clinic's discretion, how do you feel about not knowing the outcome of their decision?

As long as their outcome was for science or discarded then I am fine with that. I do not think they should be able to use my eggs for another couple.

What are your thoughts on the possibility of this couple using a gestational carrier (surrogate) or a qualified sperm donor?

I am fine with that and has to be used for gay couples.

Is there a message you would like to leave for your prospective parents? I wish you the best of luck on this journey and hope the outcome is everything you want!

Please read the list of medical problems carefully and indicate your answer in the appropriate box. Remember, this is the only information that your intended parents have to make a healthy and intuitive choice for their offspring.
